

EnviroScape Mural™ Plus! [wall & window scaping material]

FSC®-Certified

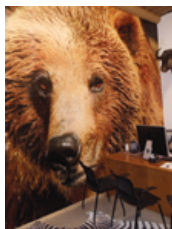

EnviroScape™ Mural Plus! is a high performance, dimensionally stable, breathable and environmentally sustainable wall and window scaping material.

Supports LEED Credit Certification

EnviroScape™ Mural Plus! is a FSC®-certified media that incorporates 10% PCW*, and can incorporate up to 25% PCW upon demand to achieve its sustainability advantage over traditional vinyl and pressure-sensitive vinyl materials. It's engineered to be easy to install and remove in walls, windows or virtually any rigid surface scaping media.

Dimensionally Stable

EnviroScape™ Mural Plus! meets the strict California 01350 standards for indoor air quality, a prerequisite for LEED credit certification. The product also carries a class A fire rating based upon ASTM E-84.
